

Waves of sound bounce back  
Repetition, reflection  
Surface to surface

a catastrophic  
collision of two planetes  
now dusty debris

The light in the hall  
Turns on, even though I am  
Downstairs all alone

I took you to see  
The sunrise over the lake  
You said 'I love you'

Meet my step ladder  
Sadly I never knew who  
My real ladder was

There is a giant  
Patch of trash floating in the  
Pacific ocean
