

2022 10 Haiku

A ball of stardust
A sentient bag of meat
Taken from the void

an initial state
of high density and heat
Universe expands

Look for messages
When playing records backwards
Hear what you want to

Sorry I kept it
The money you gave to me
And didn't pay back

A swab in my nose
Done not by someone trained
Did I do it right?

Oh to be taller
Reaching anything I want
From any high shelf
