

Oh my god. It was the most horrifying thing I have ever seen! She, she, oh my god, she just went crazy! She started shakin' and twitchin' and all this gross stuff started comin' out her nose and mouth. I told my husband, look at that waitress spittin' on those people's food. And then she just — attacked. Can you elaborate on that? How did she attack them?

us what you saw?
who witnessed the killing spree tonight. Alice, can you tell
flesh of her victims. I'm here with Alice Smalls, a diner
here on the scene that the attacker did indeed eat the
Good evening, Mike. Yes, I have confirmed with witnesses
Erica Knox, ate her victims?

We now go to Amanda Rens live on the scene. Hello,
Amanda, can you confirm early reports that the attacker,
Erica Knox, ate her victims?

Good evening and welcome to *Channel 7 Action News*.
First tonight we bring you a bizarre story from a busy
downtown restaurant. Brick House on Washington Avenue
was the setting of a violent employee rampage that
resulted in the deaths and injuries of several patrons and
employees. Early reports indicate that waitress Erica
Knox attacked several patrons, biting them on the throat
and abdomen. Several employees who tried to intervene
were also attacked.

The Apocalypse Will Be Televised

Thank you, Amanda, We'll continue to bring you updates
to this bizarre story as they become available.

No Mike. I've spoken with police here and there doesn't
seem to be any information yet as to what may have
caused Erica to snap. So far all they can confirm is three
dead and eight injured. Most injuries caused by bites from
the attacker as she did not have a weapon.

Amanda, has there been any word on what may have
caused this violent rampage?

Thank you Miss Rens.

Thank you Mrs. Smalls.

She jumped on the table, and she bit out their throats,
like a dog or some, some kinda wild animal. These two
men, they looked like they worked here, they tried to tear
her off 'em but then she attacked them. She tore right
through that man's stomach! Ripped his guts right out
and ate 'em. I have never seen anything like that.

In global news tonight, violence in Mumbai has spread
throughout India. Patients at hospitals across the country
have erupted in violence and are taking over the
institutions. Residents in the surrounding areas have
been setting the affected buildings on fire in an effort to
stop the spread of violence.
And now here's Tom with the weather.
